

## NBN Speeds Explained

There are four NBN speed tiers available, with maximum download and upload speeds measured in Megabits per second (Mbps). Be aware that some internet providers refer to different speed tiers by different names, with some opting to reflect maximum 'evening speeds' in line with new standards recommended by the ACCC.

- **NBN 12:** 12 Mbps download, 1 Mbps upload.
- **NBN 25 – 25/5:** 25 Mbps download, 5 Mbps upload.
- **NBN 50 – 50/20:** 50 Mbps download, 20 Mbps upload.
- **NBN 100– 100/40:** 100 Mbps download, 40 Mbps upload.

### Basic - 12/1Mbps

- Small households & light users
- Web surfing
- Email, social media

### Standard - 25/5Mbps

- 2-3 people household
- Streaming
- Social media & browsing

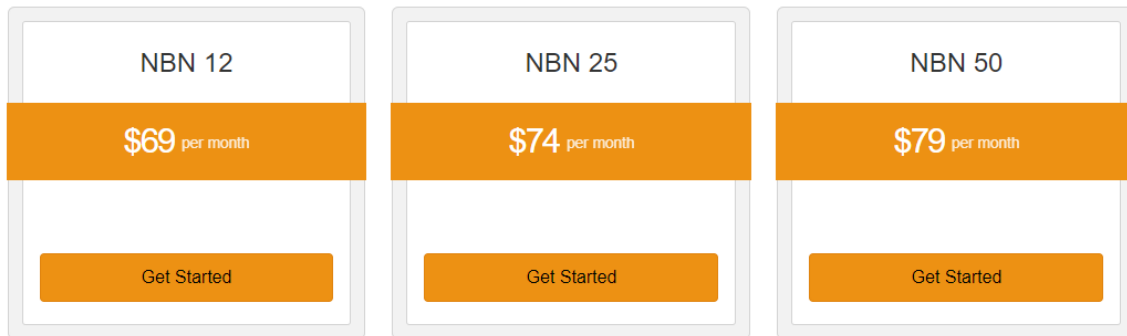

### Standard Plus - 50/20Mbps

- Heavier users
- HD streaming
- Responsive online gaming

### Premium - 100/40Mbps

- Larger households, intensive users
- Large downloads & uploads
- HD streaming & gaming

For more information on expected NBN speeds see <http://valaxus.com/nbnspeed/>
